Support Group

Support for bereaved families

We support families and carers who have experienced the death of their twins, triplets or more, during pregnancy, at birth or any time after.

We're here for bereaved families

Bereavement booklet

Written together with bereaved families, our booklet includes support and information on the death of one or more of your twins, triplets or higher order multiples. It also covers subsequent pregnancies and how to remember babies who have died.

.....

Online support group

A special place where families are supported by others who understand the challenges and grief of experiencing the death of one or more of their babies.

.....

Befriending service

Peer-to-peer support from parents and grandparents who have experienced the death of their twin(s), triplet(s) or more.

.....

Newsletter

Families can sign up to the Bereavement Support Group newsletter, sent by email four times a year. These feature personal stories, poems, details of memorial meet-ups and fundraising news.

Certificates of birth

'Always together... forever in our hearts' - beautiful words that appear on our new certificates of birth that bereaved families can freely download. We hope that these certificates will provide families with some comfort and a precious keepsake of baby or babies who are sadly no longer here.

.....

For health professionals

For healthcare news and information about twins, triplets and more please register at twinstrust.org/health-professionals.
